T-Alerts

tmail.cityofthornton.net

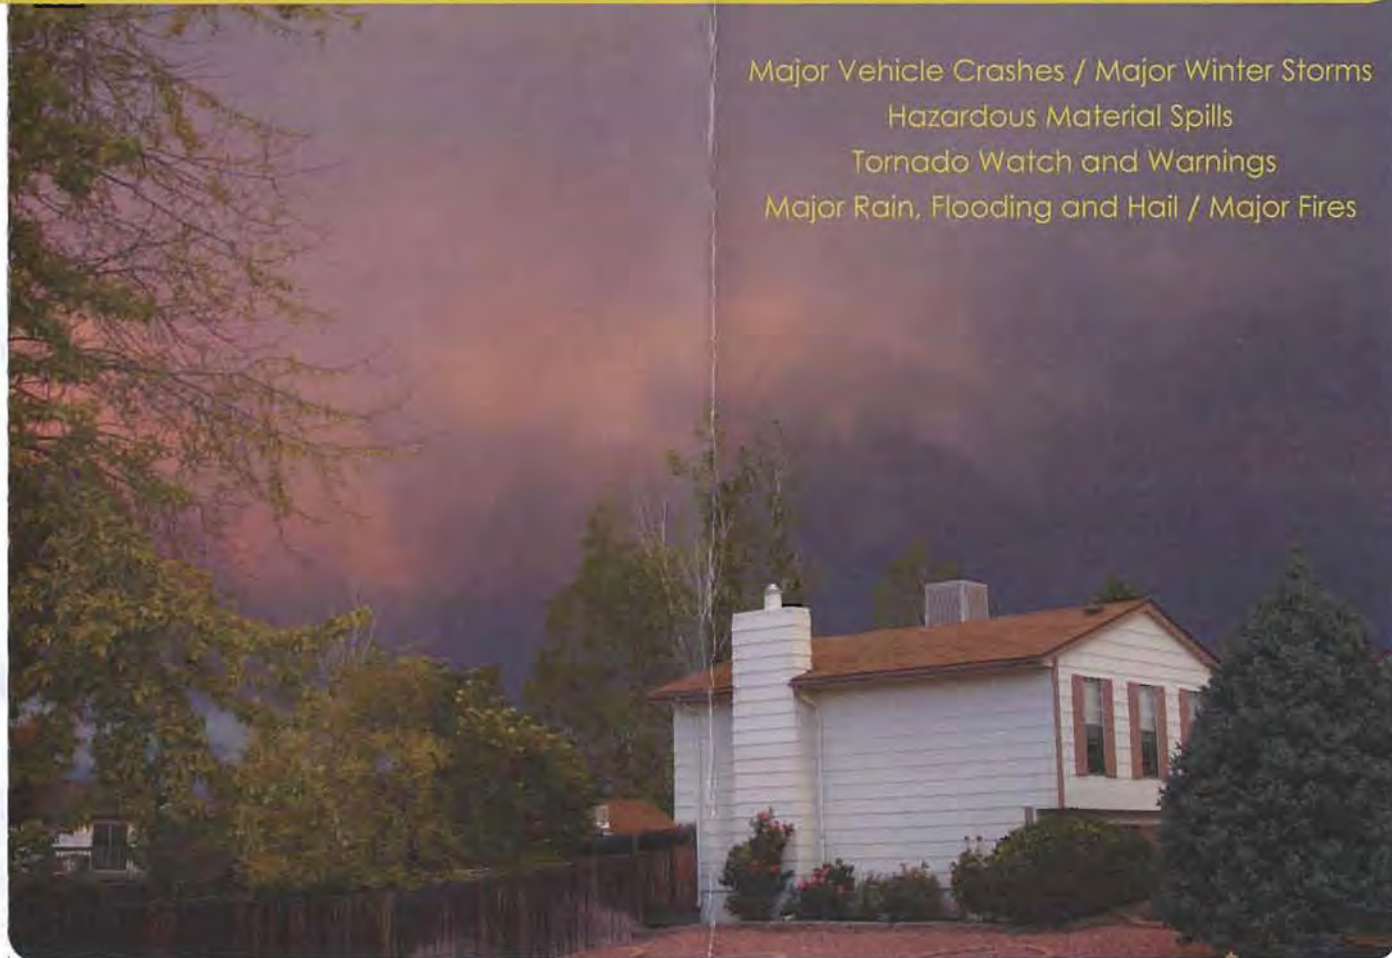

Go to tmail.cityofthornton.net and look for the T-Alerts icon in the left column. Sign up and choose the T-Alerts that you want to receive. This service is free so each person in your home can sign up for their own Emergency Management T-Alert.

***NOTICE:**

Emergency alert messages provided by Thornton's T-Alert system for severe weather should only be relied upon as a supplemental notification service. The most effective and primary method to receive weather alerts is by using a NOAA weather radio and by monitoring KOA radio and local network TV news outlets.

Major Vehicle Crashes / Major Winter Storms
Hazardous Material Spills
Tornado Watch and Warnings
Major Rain, Flooding and Hail / Major Fires

T-Alerts can let you know when an incident happens in our area.

Major Vehicles Crashes and Road Closures

Information about the location of major vehicle crashes that will close a roadway for more than two hours, with alternate routes suggested.

Heavy Rain, Flooding and Hail

National Weather Service information about the approach of possible heavy rain, (more than ½" per hour) hail, possible flooding, and road closures due to flooding.

Tornado Alerts

Information, warnings and alerts from the **National Weather Service** for the Thornton area. If a tornado touches down, this T-Alert will tell you where it happened and what areas have been affected.

Hazardous Material Spills

Information concerning the location of a hazardous material spill, what areas to avoid and what roadways are closed and for how long.

Major Structure Fires and Grass Fires

Information concerning major fires in the Thornton area, its location (including the direction of the smoke), what roadways are closed and for how long.

Major Snow Storms and Blizzards

Information concerning the forecast for the Thornton area of snow greater than 9", the City's activities on current conditions and snow plowing of City streets.
